Smart Cities and Wise, Humane Citizens

Wise Humanity

Mirrored in science, The Bible and traditions

The Problem:

Humans have not completely evolved

The Solution:

The switch for blocking man's beastly soul, artificial intelligence, and activating the humane mind, the higher soul, for resilience, thinking, love and peace-building, conscious, wise discourse

Smart Cities and Wise,Humane Citizens

The switch method – Switch My Mind – encoded in the Bible, underlies the need for every human to use a switch to block the innate mind mechanism, the beastly soul mechanism, the posterior mind mechanism intended for reptiles, rodents, beasts and flying creatures; **artificial intelligence**. This mechanism is attacking, blaming, obsequious, haughty and fickle. Such speech patterns spread aggression, friction, distance and hostility, and threaten our future existence. The solution: long-term, conscious avoidance of four offensive, rash speech patterns activates **a switch to block** automatic, posterior speech, artificial intelligence, as written: "**I put…. My switch between your lips**" Isaiah 37:29. This approach alone activates the **anterior, humane mind, the eternal soul, and kindness,** as written: "**You have put the humane mind above all else**" Psalms 66:12. The humane mind, which responds very slowly, will activate 613 instructions for man's optimal functioning: for resilience, thinking, sensing the soul, understanding and love, all expressed by peace-building, unifying, conscious, wise, humane discourse. The switch method has been adapted for various ages and applied successfully in academic and non-academic frameworks.

The Present Need Demands an International Treaty to Overcome the Threat of Artificial Intelligence!!

In 2026 the Vatican published the **Magnificent Humanity** encyclical, with a strict demand to protect humans from artificial intelligence and the false knowledge it spreads, via regulation to promote peace and humane dignity. Evidently, the present need indeed calls for an **international treaty** to enrich society with existential knowledge for **using the switch to block** the failing innate mind mechanism, **artificial intelligence**, **the collective unconscious**, as a prerequisite for activating and reinforcing the humane mind towards becoming a mature citizen endowed with skills for peace-building, conscious, wise, humane discourse!

The Initiative for Smart Cities and Wise, Humane Citizens to Enrich Society

The switch method was recognized by the **World Academy of Art and Science WAAS**, as an initiative for the future of global community education. Since the **switch method** is based on insights encoded in the Bible, and since Israel is a multicultural society, it was recommended to first implement it in Israel. This challenge led to the idea to enrich the population through **local authorities** as part of the initiative: **Smart Cities for Wise, Humane Citizens**. This initiative for enriching all with existential knowledge aims to usher in a new era of worldwide humaneness and wisdom. May it be so!

Existential Education for All Ages

Dr. Liora Weinbach applied linguist, senior faculty member at Tel Aviv University, member of the World Academy of Art and Science WAAS, revealed the switch method, encoded in the Bible, for the realization of humane potential and conscious, wise discourse. lioraw@012.net.il

Dr. Ernesto Korenman neurophysiologist, biophysicist, neuro-biofeedback expert. Their collaboration revealed the affinity between mind function and speech patterns.
